Nine Ways Federal Agencies Can Transform IT and Reduce Costs

Through strategic government efficiency, agencies are linking spending to desired outcomes, matching budgets to priorities and optimizing their IT infrastructure to deliver services more cost-effectively. Explore nine examples of how agencies are achieving quick wins—such as identifying IT centralization and financial shared services opportunities worth \$60 to \$110 million in savings—and also long-term benefits, such as reducing contractor usage by one-third for a savings of approximately \$9 million per year.
